VENKATESHWARA

AUTOMATION & CONTROLS PVT. LTD.

VENKATESHWARA AUTOMATION & CONTROLS PVT. LTD
WORKS / OFFICE ADDRESS

UNIT-I

PLOT NO.21/5/1, D1 BLOCK MIDC,
CHINCHWAD ,PUNE -411019.

UNIT-II

PLOT NO.3B+3PART/09,D-1 BLOCK,
AKURDI INDUSTRIAL ESTATE ,
IN FRONT OF ADOR WELDING ,
M.I.D.C AKURDI CHINCHWAD
PUNE -411019

WHO WE ARE

- Our solutions help customers to improve their capacity, enhance operational efficiency, better the quality of products produced, and enable safer operations of the equipment. We work with customers to achieve excellence in operations by delivering the right technology services and solutions as a valuable and trustworthy partner. VACPL does this with state-of-the-art Process Systems, IIoT Technologies.
- VACPL has a core team of technical experts, consultants, supervising members specialized in control and automation, thermal engineering, combustion, and process engineering to meet your industry demands. VACPL success of engineered solutions is driven by need finding and innovative solutions to meet your growth needs.
Our solutions define our customer's success. We have successfully served 500+ industrial implementations across the globe, and we will be happy to serve you too.

WHAT WE DO

- VACPL has expertise in developing, implementing & automation of various process systems, digital solutions, IIOT based systems, PLC-SCADA based automation system & remote monitoring.
- VACPL provides solutions for process plants which involves conceptualizing, designing, manufacturing, and delivering required systems for various project.
- Industrial Automation
- High Power VFD Panels
- CE Compliant Panels Systems
- We Make Panels As Per IEC 61439
- Stainless Steel Hygienic Panels
- IMCC'S
- PCC'S
- Harmonic Distortion Reduction Panels
- Burner Management System & Control For Various Applications
- Electrical Panels For Various Applications
- MS, SS Enclosures up to IP 66 rating

CORE COMPETENCIES

PROCESS ENGINEERING & AUTOMATION

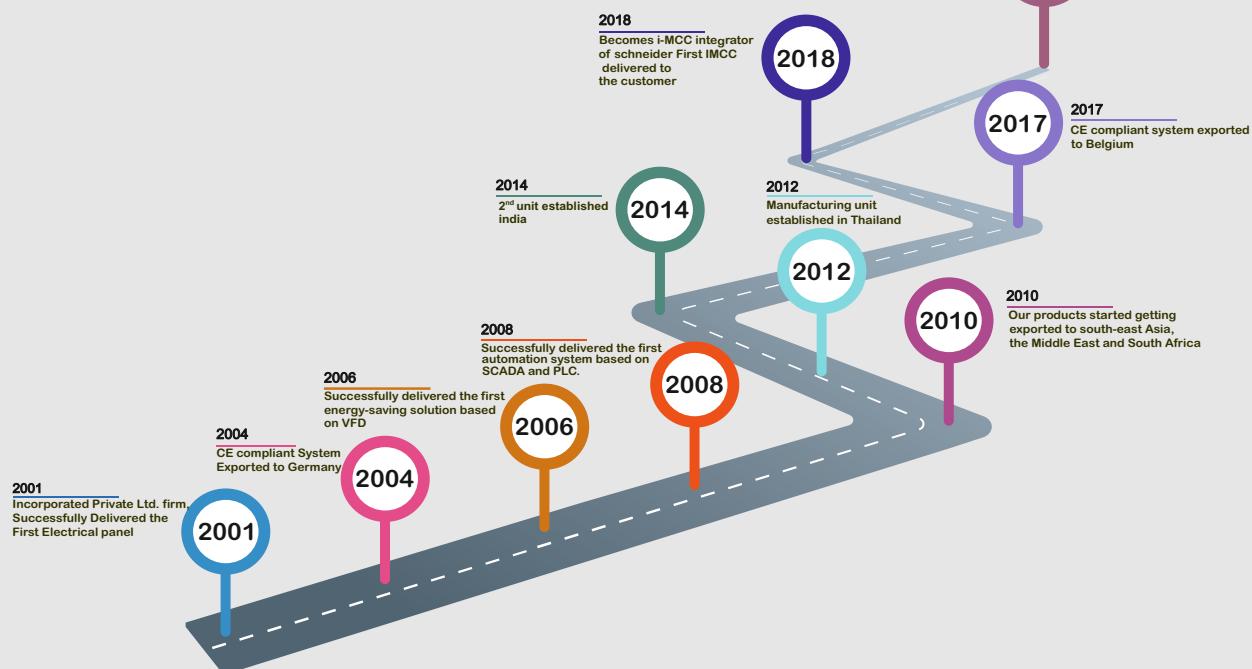

- Process flow design
- Piping and instrumentation
- Diagram P& ID
- Manufacturing and Combustion System Design
- Manufacturing and supply of electric Panels for various equipments

INDUSTRIAL AUTOMATION

- Instrumentation
- PLC/HMI/SCADA
- Control panels
- Gateway devices
- IIoT solution
- MCC Panels, PCC Panels
iMCC Panels, VFD panels & instrumentation panels
- HIGH POWER VFD's
160kw to 1200kw VFD's for specialized applications

Solutions Supplied To The Following Applications

- Instrumentation- Engineering and Design
- Combustion system- Engineering and Automation
- Preparation of process flow design
- Hazop Study and complete customer support as per requirement
- Material handling system automation
- Retrofit solutions for existing applications
- Harmonic Distortion Reduction Panels
- Burner Management System & Control For Various Applications

AUTOMATION FOR

- Burner control system
- Coal handling system
- Ash handling system
- Waste water treatment plant
- Air handling unit

CAPABILITIES

- Basic and detailed engineering of customised plants- Power panel, PLC panel, MCC panel, PCC panel VFD panel instrumentation panel & APFC panels etc.
- Instrumentation and control
- Installation supervision
- Automation and IIoT based Panels
- HAZOP participation on request
- We make panel as per IEC 61439 and CE compliant panel.

CUSTOMIZED SOLUTIONS SUPPLIED FOR

- Skid mounted units
- Process equipment
- Material handling system
- Utilities like Boilers and Compressors
- Spray drying Plants for Powder

INDUSTRIES WE SERVED

- Pharmaceutical
- Chemical/Polymer
- Oil & Gas
- Food & Beverages
- R&D Laboratories
- Mate Intending
- Textile Ind
- Utilities

WHY VACPL

MCC PANEL

iMCC PANEL

PLC & SCADA AUTOMATION

PDB PANEL

IEC 61439 CERTIFIED
MCC PANEL

VFD-MCC PANEL

IIOT BASED iMCC

HIGH POWER VFD'S
FROM 360KW TO 1200KW

MCC PANEL WITH
SS ENCLOSURE

SS RIO PANEL

SS ISOLATOR BOX

MCC PANEL WITH
RITTAL ENCLOSURE

AIR COMPRESSOR SYSTEM

BOILER PLANT

SPRAY DRYING PLANT
